

INTIMSPRAY Technical Rider

This tech rider points out the basic requirements for a hassle-free INTIMSPRAY show. If there are any problems fulfilling these requirements, please don't hesitate to get in touch with us.

Please note we don't travel with technicians so require a sound and lighting technician to be provided by you.

STAGE

Minimum size: 6m x 4m/8m x 6m preferred.

The stage should be solid, stable, statically safe, weatherproof and with clearly marked staged steps.

Drum Riser 2m x 2m x 40-60 cm (not required on 6 x 4m stages)

Please provide 2 ventilators/fans for the stage, consumer types are fine!

SOUND SYSTEM / PA

PA System: preferred L-Acoustics, d&b or equivalent. The system should be capable of producing a full and even sound coverage of the complete audience with enough headroom (110 dbA at FOH)

FOH: Minimum 24 ch mix digiCo, Yamaha, Midas preferred.

Monitors: in clubs, Monitors from FOH minimum 4 sends with EQ on each send. Larger venues, halls and open airs. Please provide a separate monitor mixer on stage with monitor technician; d&b, L-acoustic EV wedges preferred.

Lighting: we use the lighting in the venue, we may need some lights repositioned. Please send your stage lighting plot to Bill Pugh (email is below), please see our stage plot for LX special requirements (4-5 LED colour changing FLOOD 3in1 TYPE! and Hazer)

We supply two Aputure MC battery lights with smartphone control (as an effect): we install these on the stage monitors (attached by Velcro/Klettband/magnetic)
